About This PDF Booklet

This PDF Booklet contains a list of plants and/or products found in last year's *OAN Nursery Guide*. Listings are arranged alphabetically within each main section in the same order as they appear in the book. If you ran listings last year, a customized report was sent to you. It is not necessary to send us the entire booklet, only the pages with listings marked, your 2011 report, and the order form.

Repeat Last Year

To repeat last year's listings with no changes, enter the total number on the payment summary section of the enclosed order form. To make deletions or change quantity codes, make corrections on the 2011 report.

New Listings

Use this booklet to order listings that did not run last year. Locate the product in the PDF booklet, and indicate quantity in production or place an "X" in the appropriate column(s). Refer to the chart at right for the explanation of codes and abbreviations. Enter amount on the payment summary section of the enclosed order form.

Items Not In The PDF Booklet

Every plant species, product and service that appeared in last year's *OAN Nursery Guide* is included in the booklet. *Use the new product sheets at the end of the booklet to add new varieties or products.* One page is for plants, the other is for services and supplies. If you have too many new items to fit on the page, you may photocopy the form. Enter amount on the payment summary section of your order form.

Additional Items - Plant Material

Do you sell a plant that is not listed in the worksheet booklet? We can add it to our plant list. Please give both botanical and common name (where applicable) and note any trademarks or plant patents. It is helpful if you include a brochure or copy from a published reference for new cultivars that might not be listed in the horticultural reference books we use to check spelling and verify plant names. Attach additional pages as required. Use Page 77 for non-plant items.
